

LION STREETTM
Owned by Fiercely Independent Advisors

Senior Vice President of Firm Development

Lion Street continues to grow our national footprint of life insurance centric firms needing a strong insurance and wealth management partner. As we enter our ninth year of operations, the future has never looked brighter as more and more elite life insurance practices recognize that you can be both independent and have the buying power of a national network.

We are looking for highly motivated, experienced life insurance professionals to build a network of 30-40 firms over a three-year period and leverage the many resources of Lion Street to help these firms grow. Our business model is proven and our value proposition resonates with successful life insurance firms.

We have 6 highly successful Senior Vice Presidents who have built their “business within a business” and we want to add 2-3 more entrepreneurial minded SVP’s this year. While we do not have any strict geographic boundaries, we are most interested in growing California, Chicago/Midwest and the Northeastern/Atlantic areas.

The position comes with a base salary commensurate with experience and potential, a cash incentive plan and very importantly a stock option plan in a fast growing, dominant distributor of insurance and wealth management in the high net worth and corporate markets.
